

ON-PREM, IN THE CLOUD, HYBRID DELIVERY MODEL!

Modernization comes at a cost where risks and rewards need to be balanced with available budgets. The scale of risk depends not only on the state of the equipment but also the human resources in place to support that equipment. Our methodology will help your organization sort through all the detail to find the best solution for your business.

Creating value for your organization is paramount to our partnership, which is why we leverage proven methodologies to ensure the best possible outcome for your business.

LATG's solutions architects modernize data centers by combining once siloed elements into cohesive, software-defined virtual environments. We can help your initiatives with Technology refreshes, Integrating new hardware, Virtualization, Private and Public cloud enablement, Capacity Management, Network Security and Monitoring, and Data Storage.

Our engineers can help improve and streamline every aspect of your data center to run optimally.

BRING PRODUCTS AND SERVICES TO MARKET FASTER

ROLL OUT NEW APPLICATIONS IN A FRACTION OF THE TIME

BETTER MONITOR AND MANAGE IT INFRASTRUCTURES

IMPROVE USER EXPERIENCES AND SYSTEMS RELIABILITY

ANALYZE THE NEED TO INCREASE CAPACITY TO SUPPORT GROWTH. PLAN FOR POTENTIAL BENEFITS AND PITFALLS, AND OPPORTUNITIES TO CONSOLIDATE.

WHY LATG? Founded in 1999, LATG provides professional and objective IT services and products across the United States, using best-of-breed technology on an enterprise-wide level, offering opportunities and alternatives, while articulating the value in real business terms.
